ADDITIONAL COURSES FOR 2018 to those published in the November 2017 Curriculum Booklet

18COM010: PHOTOSHOP ELEMENTS FOR BEGINNERS **11.30 – 1.00** **WEDNESDAY**
Venue: SINCLAIR AVENUE ROOM 1

Tutor: Barbara Gibson

fortnightly 2nd & 4th from 14 February NCSSH

Do you want to restore old photos, enhance favourite shots, add features or remove unwanted items, or change the size or orientation of an image?

Photoshop Elements (PE) can do all of this and so much more. This course is intended to introduce students to the basic skills needed to achieve all of these; above all we intend to have fun doing this.

It is not necessary for students to have any equipment or programs for the two introductory sessions, but If they already have any version of PE (or CS) on a laptop they are encouraged to bring these along to workshop during demonstrations. Those who only have desktop computers should bring along a memory stick to take samples home. Advice will be provided if students need to purchase a program.

Students are asked to contact the tutor before enrolling to discuss what they aim to get out of the course. (Ph. 9509 4478 or email barbarag14@bigpond.com)

18COM011: PHOTOSHOP ELEMENTS – WORKSHOPS **11.30 – 1.00** **WEDNESDAY**

fortnightly 1st & 3rd from 21 February NCSSH

Comments: This workshop is designed for students who already have a basic knowledge of Photoshop Elements (or CS). We will work through basic applications first, then individuals will set their own tasks, and share information and ideas. The tutor will provide challenges, and decide on directions based on student input.

Many of the lessons are done lying on the floor. Regular attendance is required. Student prerequisites: Bring a yoga mat or think blanket (or both) to lie on.
